Summary

I'm a Software Engineer with an interest in designing websites, especially things related to Front-end stacks and UIX Designer. I am eager to be challenged to grow and further improve my IT skills.

Work Experiences

Software Engineering

Jul 2021 - Present

[Datahouse Asia](#)

I participated as a Software Engineer Intern. After 1 year, I was promoted to Middle Software Engineer at DHA (Aug 2022)

My main tasks are:

- Working on multiple projects simultaneously in both Web and Mobile apps
- Manage tasks & efforts for the FE team.
- Review code & support team members.
- Interview, Technical training for interns & new junior F.E (React) developers.
- Research and apply new technologies to the Front-end repository

Technologies: React, Redux, React Native, NextJS, Restful API, AWS, Angular,...

Languages: Vietnamese, English.

Tech Startup

May 2021 - Present

[TapTapOn.Me](#) - My small start-up project, which provides the Smart Business Card by NFC technology (current I have around 400 users using this application)

In this job, I'm doing the roles: Full-stack Web Developer, UIX/Graphic Designer

[INUT Design](#) - An E-commerce website for customizing laptops, mobile, camera skin

Technologies: Webapp & Webadmin (Nextjs, Sanity, Firebase, Framer motion, SEO,...)
